

About Us:

We know that when people are given the space and time where they can be nurtured and cared for, nothing, but good unfurls from it. We believe in massage and the healing arts as a way to look after the mind, body, and spirit of our community. We are thankful for each person that walks through our door because the fact that you are taking the time to tend to yourself, we know that you will be better prepared to care for those around you. You are in good hands.

Red Earth is a locally owned massage studio established as an act of love and kuleana to the islands and its people. We believe it is not only our responsibility, but also our privilege to provide a space and time for people to care for themselves. Red Earth was born at the beginning of 2013 in conjunction with Creative Fitness, a pilates studio located at Kilohana Square on Kapahulu. Thanks to an ever growing and truly amazing clientele, at the start of July, we were able to expand into a slightly larger facility located at Eaton Square on the Ala Moana side of Waikiki. Red Earth had been a dream years before it was a reality. From the bottom of our hearts, we cannot thank you all enough for joining and supporting us in its constant growth. There is so much more we aim to give back; so much more in store.

With humbled hearts, mahalo piha and aloha.

Optimize Your Experience:

Mud Massage

Aromatherapy Massage

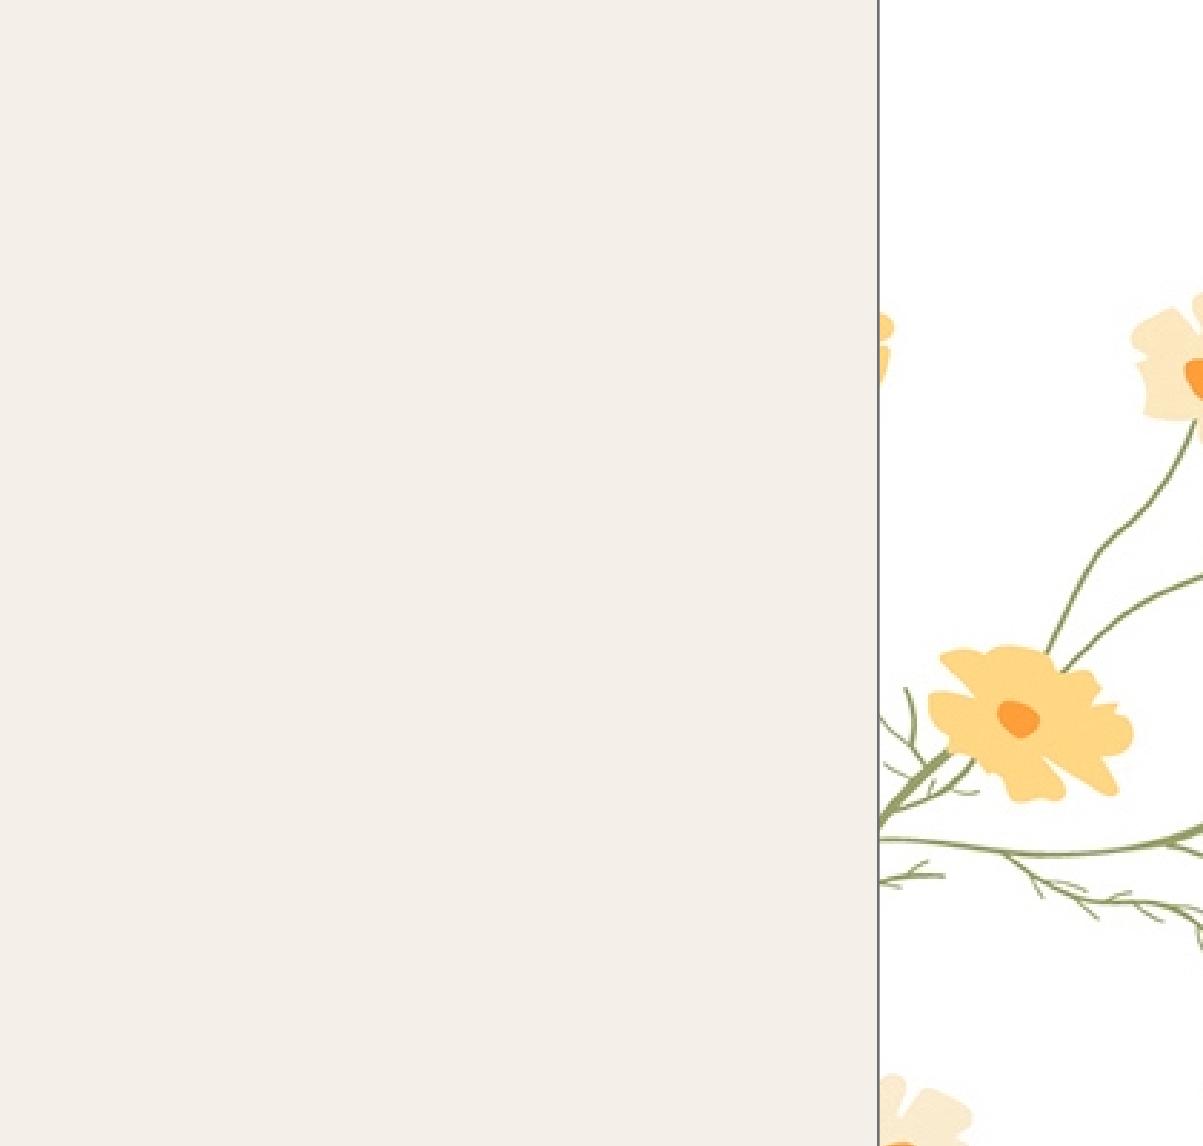

Hot Stone Massage

The mud is special on its own, made of local volcanic ash blended with natural peat and geothermal mineral water sourced from the resort property. And massages add that final, blissful bit of full relaxation, in treatments ranging from classic to deep tissue to reiki.

An aromatherapy massage is a popular multi-purpose way of using supplemental care for health issues. The skin absorbs essential oils maintaining suppleness, it offers pain relief, and the aroma's mental stimulation provides clients with the ultimate massage session.

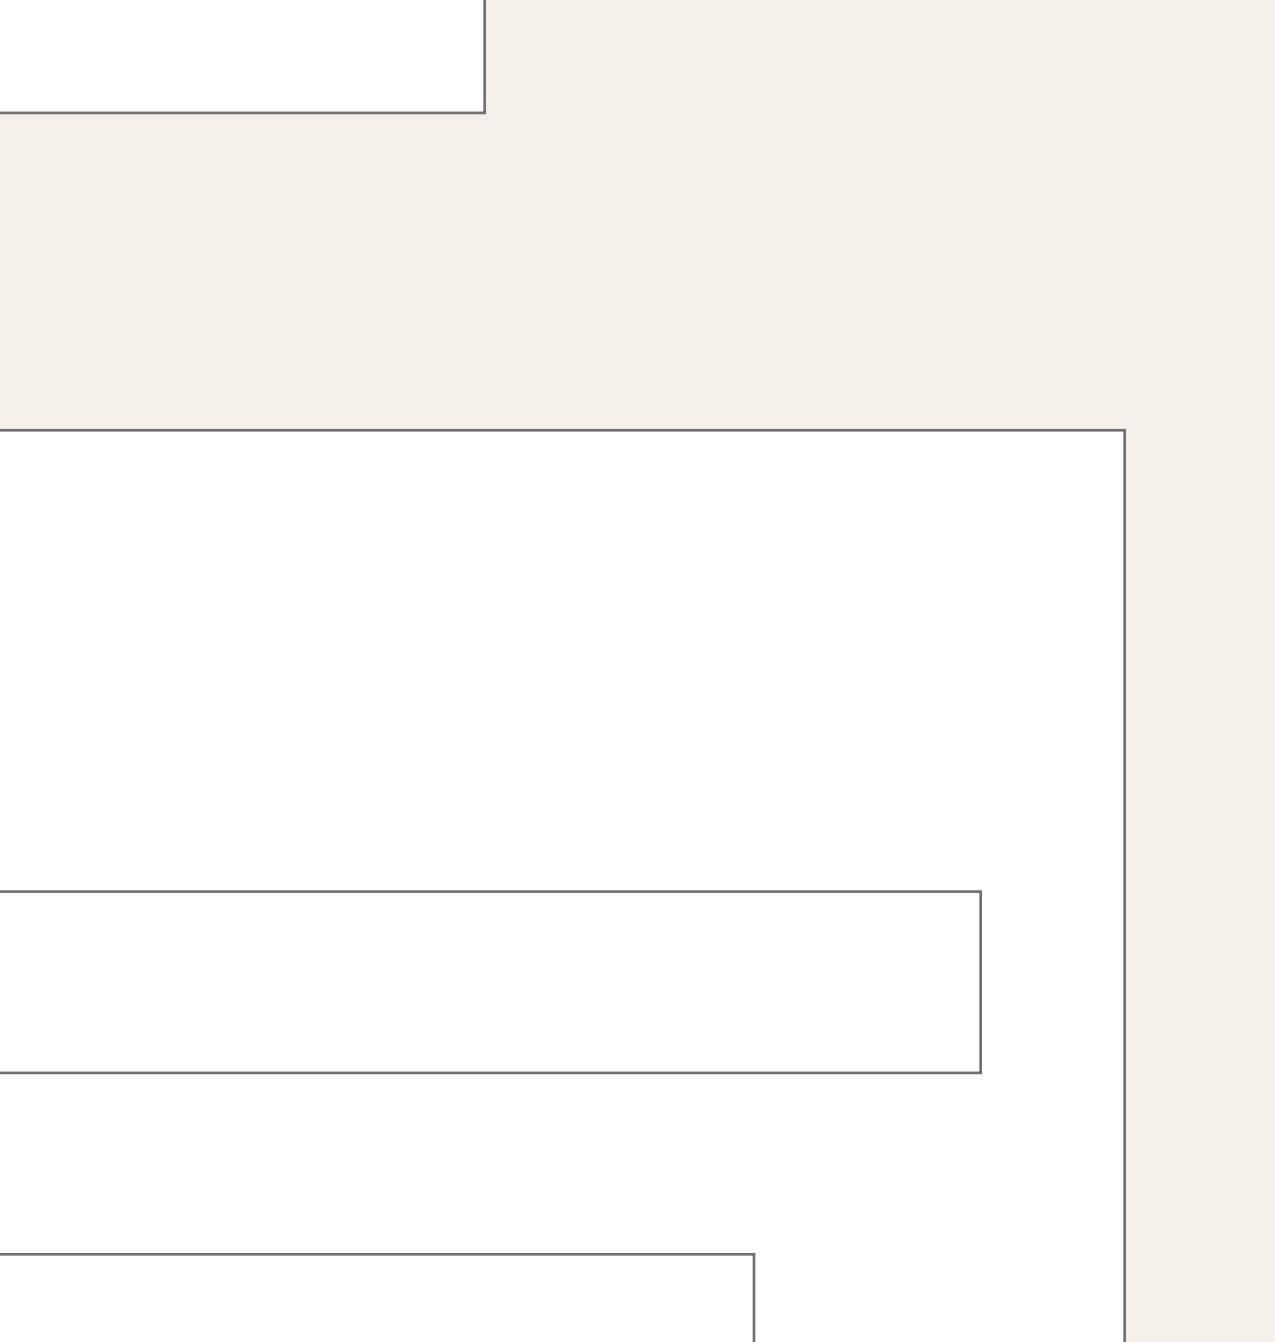

A hot stone massage is a type of massage therapy. It's used to help you relax and ease tense muscles and damaged soft tissues throughout your body. During a hot stone massage, smooth, flat, heated stones are placed on specific parts of your body.

Special Packages:

Our Warm Earth Package is a session to be completely rejuvenated with. Your session starts with a 90 minute hot stone massage with coconut oil, followed by a 30 minute peppermint foot massage. Finish your session with 30 sugar body scrub.

Our Buddha Within Package is designed to relax and recharge you. Start your session with an 80 minute custom Swedish/Deep Tissue with lavender essential oil. Hot stones will be used to help soothe tired back muscles. Continue with 30 minutes of our extremity remedy to care for your overworked hands and feet. End your massage, with 10 minutes dedicated to an aromatherapy headache relief.
